MISSION STATEMENT
LesPlan Educational Services Ltd. aims to help teachers develop students’ engagement in, understanding of, and ability to critically assess current issues and events by providing quality, up-to-date, affordable, ready-to-use resources appropriate for use across the curriculum.

I have had many parents comment to me about how great they think What in the World? is, and they look forward to each month’s issue coming home... This is a great resource for a small country school to explore the global issues that affect us all.

K. Camelon, Grade 7/8 teacher
Admaston, ON

We welcome your comments and appreciate your suggestions. Please contact us at any time.
1. Without revealing the topic of the article, or the subtitle, write the main title on the board: **40 Million and Counting**.

2. In pairs, have students predict what this article might be about. (E.g., an amount of money, a world record of some sort, the number of cars on the road, the population of a city or country, etc.) Share ideas as a class.

3. Reveal the subtitle of the article: **Canada Hits a New Population Milestone**. You may wish to clarify the meaning of "and counting" (it continues to grow) and "milestone" (reaching a specific stage or level of development).

4. In small groups, have students discuss the following two topics:
   - ways that populations increase (e.g. higher birth rates; lower death rates; immigration, including refugees, students, work-related immigration, marriage with someone from another country, adoption from another country; etc.);
   - ways that populations decrease (e.g., higher death rates, lower birth rates, epidemics, war, people emigrating to other countries, etc.).

5. Share ideas as a class. Then, ask students to predict the main reason for recent population growth in Canada.

6. Finally, invite students to set a purpose for reading the article, referring to the resource page Setting A Purpose Before Reading as needed.
On June 16, our country hit a major landmark. Statistics Canada says that was when the nation’s population reached 40 million.

“This is an exciting milestone for Canada,” said Chief Statistician Anil Arora. “It is a strong signal that Canada remains a dynamic and welcoming country.”

The bigger picture

The 40-million figure tells a bigger tale, too.

Canada’s population is expanding faster than it has in decades. The nation’s annual growth rate is 2.7 percent. That’s the highest it’s been since 1957. As a result, Canada is the fastest-growing G7 country. If the nation keeps growing at this rate, the population could hit 50 million in just 20 years.

We help others . . .

How to explain this massive population surge? It comes down to one word: immigration. In 2022 alone, Canada grew by over one million people. About 96 percent of this increase was due to people moving to Canada from other nations. That’s more than twice the 430,000 permanent residents the federal government was expecting.

The numbers increased because Canada took in more refugees than planned. Many came from war-torn nations like Ukraine, Syria, and Afghanistan. Others came from Turkey and Syria.
National

40 Million and Counting
– Canada Hits a New Population Milestone

after a huge earthquake last February destroyed homes in these nations.

Yet this influx of immigrants is just part of an ongoing trend. Some 40 percent of Canadian residents are already immigrants or children of immigrants. And in 20 years, immigrants will make up the majority of Canada’s population.

...and they help us

Canadians have humanitarian reasons for accepting large numbers of immigrants. But we’re also being practical.

Canada’s current population is aging. In 1980, about six people were working for every retired person. By 2030, the ratio will be three to one. Meanwhile, the nation’s birth rate has dropped substantially.

That means we risk not being able to replace the people leaving our labour force. With fewer workers, critical public services might suffer. Why? To fund schools, hospitals, and other infrastructure, the government relies heavily on the income tax that employed people pay.

As well, skilled newcomers fill our acute labour shortages in many fields, such as health care.

Canada is hoping immigration will help offset these problems. Many immigrants are young, so they’ll pay into the public system for years to help support services. They’re ambitious, too. The businesses they start and the purchases they make contribute to our Gross Domestic Product (GDP). Plus, they’re often willing to relocate to small communities that benefit from their expertise.

The downside

Yet some observers have concerns about Canada’s growing population. They point to housing as a major issue. Homes now sell for over $700,000 on average across the country. That’s too costly for many people already living here. And there isn’t enough housing for everybody at any price.

Another worry? At present, one in five Canadians doesn’t have a family doctor. This shortage of medical care could worsen as the population ages and grows. What if the healthcare system stretches to the breaking point?

That could put people at risk. Roads could see more cars, too, adding to pollution. Schools could become overcrowded. Public transit could struggle to handle more passengers.

“If we want to do more immigration, fine, but let’s have a suite of policies… that increase infrastructure investment for transit, housing, health care, [and] schools,” said one expert.

Others are looking at the impact Canada’s growth spurt is having on our present high level of inflation. Immigrants’ need for consumer goods has pushed up demand, causing a shortage of these items. When demand exceeds supply, prices stay high.

Reasons to celebrate

So, there’s a lot to navigate as our population grows. Yet many people believe it’s worth pausing to mark this milestone.

“We are from far and wide, but united we are 40 million strong. There is no challenge we cannot overcome together,” Prime Minister Justin Trudeau said. “So let’s celebrate each other, and let’s celebrate as we continue to build this great country.”

Definitions

GROSS DOMESTIC PRODUCT (GDP): the total value of all the goods and services produced by a country in one year

HUMANITARIAN: connected with helping people who are suffering and improving the conditions that they are living in

INCOME TAX: the amount of tax that you pay to the government according to how much you earn

INFLATION: a fall in the value of money and a general increase in prices; the rate at which this happens

INFLUX: a lot of people, money, or things arriving somewhere

INFRASTRUCTURE: the systems that keep a country running smoothly: buildings, transport, water, and power

LABOUR FORCE: all the people who work in a country

LABOUR SHORTAGE: when there are more jobs than workers
1. What is Canada’s population clock?

2. Explain how this 'model' works.

3. What milestone did Canada's population reach in mid-June?

4. Describe the recent rate of population growth in Canada.

5. What is an immigrant? Explain.

6. How many people moved to Canada last year?

7. What is a refugee? Explain.

8. Canada welcomed a large number of refugees in 2022. Which countries did many come from?

9. Explain why Canada's labour force is shrinking.

10. List two reasons why the government is concerned about a decrease in the labour force.
1. The article states that Canada grew by more than one million new immigrants in 2022, which makes it the fastest-growing member among G7 nations (Canada, France, Germany, Italy, Japan, the United Kingdom, and the United States). What reasons can you suggest to explain why the population is growing more quickly in Canada than in other G7 countries?

2. The article quotes Prime Minister Justin Trudeau: “We are from far and wide, but united we are 40 million strong – and there is no challenge we cannot overcome together. So let’s celebrate each other, and let’s celebrate as we continue to build this great country.” Do you agree or disagree with this statement? Give reasons to support your response.

3. Statistics Canada is a federal government agency that produces statistics about Canada’s population, resources, economy, society, and culture. As you see it, why might it be important to track this type of data? Support your answer with examples.

40 Million and Counting
– Canada Hits a New Population Milestone

QUESTIONS FOR ONLINE EXPLORATION

Note: The links below are listed at www.lesplan.com/links for easy access.

1. Visit Statistics Canada and learn more about Canada's 40-million population milestone and our country's growth over time:
   Make note of 2 interesting facts that stood out to you in this summary.

2. Watch this video about the growth of Canada's population since it became a country in 1867:
   List 3 of the key moments that contributed to large growth spurts in Canada's population.

3. Check out Statistics Canada's real-time model population clock:
   https://www150.statcan.gc.ca/n1/pub/71-607-x/71-607-x2018005-eng.htm
   What did you notice? List two questions that you have about the data presented.
1. Complete the table below to show:
   a) the total population of Canada during the last five census years;
   b) the total number of immigrants in Canada during the last five census years;
   c) the percentage of immigrants compared to the total population.

   The following source will help:  [https://en.wikipedia.org/wiki/Canada_immigration_statistics](https://en.wikipedia.org/wiki/Canada_immigration_statistics)

<table>

2. Plot a bar graph to show Canada's total population in each of the past five census counts. Shade each of these five columns blue.

3. Plot a column to show the total number of immigrants beside each blue column. Shade each new 'immigrant' column red.

4. Label your graph with a title.

5. Examine your graph. What observations can you make and what conclusions can you draw? Explain.
In 2021, 191,338 individuals transitioned from temporary to permanent residents.

Immigration accounts for nearly 100% of Canada’s labour force growth, and will account for 100% of our population growth by 2032.

Canada’s post-pandemic recovery has been among the strongest in the world, but more than 900,000 unfilled positions still remain across all sectors.

The 2023-2025 Immigration Levels Plan aims to welcome 465,000 permanent residents in 2023, 485,000 in 2024 and 500,000 in 2025.

The plan is focused on spreading the benefits of immigration to regions and communities across Canada.

By 2025, overall admissions will amount to nearly 1.3% of the Canadian population with 60%+ of admissions in the economic class.

Working to increase Francophone immigration to reach a target of 4.4% of French-speaking immigrants outside Quebec by 2023.

Employers in communities across Canada will be supported to fill their critical labour needs.

Immigrants have been essential to Canada’s post-pandemic economic recovery.
Canada population surges by a million

The population of Canada increased by more than one million people in 2022, mostly due to efforts to recruit migrants to the country.

© GRAPHIC NEWS

March 23, 2023 - The population of Canada increased by more than one million people in 2022, mostly due to efforts to recruit migrants to the country.
What questions do you still have about the topic presented?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
A. Write the letter that corresponds to the best answer on the line beside each question:

1. What is the main reason for Canada's shrinking labour force?
   a) an aging population  
   b) a large number of refugees  
   c) an increasing birth rate  
   d) people moving to the United States

2. In 2022 about one million __________ came to Canada.
   a) refugees  
   b) migrants  
   c) immigrants  
   d) tourists

3. By 2043 Canada's population is expected to reach:
   a) 40 million  
   b) 47 million  
   c) 50 million  
   d) 65 million

B. Mark the statements T (True) or F (False). If a statement is True, write one important fact to support it on the line below. If a statement is False, write the words that make it true on the line below.

4. True or False? About 40 percent of Canadians are immigrants or children of immigrants.

5. True or False? GDP = Grand Domestic Product.

6. True or False? Canada recently accepted many refugees from Ukraine who fled after a large earthquake destroyed their homes.

C. Fill in the blanks to complete each sentence.

7. _______________________ Canada produces data about Canada's population, resources, economy, etc.

8. Canada's annual population growth rate is higher than any _______________________ country.

9. About one in five Canadians don't have a family _______________________.

D. Respond to the following question in paragraph form. (Use a separate sheet of paper if necessary.)

10. As you see it, what is the biggest challenge related to Canada's growing population? Give reasons to support your response.
There are a number of reasons we read, and setting a purpose for reading – knowing WHY we are reading – helps us to focus on important information and to better understand and remember what we read. It also helps us decide HOW we will read the text.

We don’t read all texts for the same purposes or in the same way. For example, we read an instruction manual for a new Blu-ray player for a different reason than we read a book or a website. How we will read it – the strategies we use – will also differ. We are more likely to skim to find the information we need in a manual. Once we find what we need, we might read the instructions carefully to figure out what to do. Then, we stop reading, put the manual down, and carry out the steps. We may have to reread if we get confused or forget what to do.

This is a very different approach than the one we would use to read a book. When we read a book, we usually read cover-to-cover. We read carefully so we don’t miss any details because we want to understand the whole story. Sometimes we make connections or create images in our minds as we read to help us better understand what we are reading. Depending on its length, we may put the book down before we finish reading it but we will start reading where we left off.

Good readers are flexible and responsive. This means that they match their reading strategies to their purpose for reading. What types of text do you read? Why do you read them? What strategies do you use to read each of these texts? The chart below is a summary of the main purposes for reading and what each entails.

<table>
<thead>
<tr>
<th>Purpose for reading</th>
<th>What it looks like</th>
</tr>
</thead>
<tbody>
<tr>
<td>For enjoyment</td>
<td>Usually student-selected.</td>
</tr>
<tr>
<td></td>
<td>Allows students to choose a variety of genres and forms.</td>
</tr>
<tr>
<td></td>
<td>Allows students to pursue what interests them while developing reading skills.</td>
</tr>
<tr>
<td>To experience something new</td>
<td>Students make connections between their personal experiences and those of people around the world.</td>
</tr>
<tr>
<td>To learn more about themselves and others</td>
<td>Students reflect on what they’ve read and express opinions and perspectives.</td>
</tr>
<tr>
<td></td>
<td>Students develop a sense of their personal values and make sense of the world around them.</td>
</tr>
<tr>
<td>To gain information</td>
<td>Students use the features of informational texts to gather, analyse and apply what they’ve learned.</td>
</tr>
<tr>
<td>To understand issues</td>
<td>Students develop a sense of perspective.</td>
</tr>
<tr>
<td></td>
<td>Students pose questions, acknowledge other points of view, critique the opinions presented and support opinions with evidence.</td>
</tr>
<tr>
<td>To appreciate writing</td>
<td>Students respond to text in ways other than written answers to apply what they’ve learned in new contexts.</td>
</tr>
<tr>
<td>To appreciate use of media to communicate</td>
<td>Students respond to a variety of media formats (e.g., infographics, political cartoons, videos, etc.) and react to how the format supports the meaning of the message.</td>
</tr>

* Chart adapted from: A Guide to Effective Literacy Instruction, Grades 4-6, p. 11.
Students want to know what’s happening in their world – but the news can be difficult and time-consuming to teach.

WE HAVE THE SOLUTION. (Five, actually.)

The Canadian Reader
PDF/Word resource
✓ Clearly written, leveled Canadian current events articles
✓ Literacy-based lesson plans
✓ Engaging, original illustrations
✓ Comics
✓ Map assignments
Product details: 8 issues. 38 pages. Available in English and in French for grades 3 and up (1 reading level).

What in the World?
✓ PDF/Word resource
✓ National and international news stories
✓ Key vocabulary
✓ Background information
✓ Varied assignments that build content-area knowledge and enhance critical thinking
✓ Maps and illustrations
Product details: 8 issues. 60 pages. Available in English and in French, and in 2 reading levels, for grades 5 and up.

Building Bridges
✓ PDF/Word resource
✓ Builds understanding of current events that impact Indigenous Peoples and all Canadians
✓ Two theme-based articles and lesson plans
✓ Background information
✓ Consistent with First Peoples Principles of Learning
✓ Encourages a respectful, reflective, empathetic, and inquiring frame of mind
Product details: 5 issues. Variable page length. Available in English and in French, and in 2 reading levels, for grades 5 and up.

Currents4Kids.com
News4Youth.com
✓ Online and interactive
✓ Weekly
✓ Auto-graded quizzes
✓ Comment page for students to respond to the stories
✓ Links to relevant articles, resources, maps, photos and videos
✓ Extension activities
Product details: 40 issues. One subscription allows all teachers and students access from any Internet-connected device at any time. Available in English and in French. Currents4Kids/Infos-Jeunes: Grades 3 and up (1 reading level). News4Youth/Infos-Ados: Grades 5 and up (3 reading levels).

Students Can Work In Word/Google Docs...

Did you know...

. . . that each issue of *What In The World?* includes a PDF file (complete document) and a Word file (articles and questions only).

Students can complete assignments directly in the Word file. Teachers can email the file to students or post it on the Internet. The Word file also allows teachers to:

- easily modify and format content including changing fonts and text sizes
- create a PDF document and use Adobe Reader’s ‘Read Out Loud Mode’
- save paper and copying costs and help protect the environment
- promote and encourage students’ computer skills

Password Security

There are three ways to access data from a Word file that is password protected:

1) Select the data you wish to Copy and then Paste it into any word processing program. Use Select All to copy the entire document.

2) Import the entire Word file into LibreOffice (or another similar program) and then save as a new file

3) To remove the password from a protected Word file, use Save As to make a new copy of the file. You can then change the Security settings and remove the password.

Google Docs and LibreOffice

- You can easily upload the Word file to Google Docs and share it with students or other teachers.
- You can translate Google Docs into another language (see Tools>Translate document) but you will need to edit the document to suit your requirements. Google Docs can translate into over 100 languages including Spanish, Mandarin, and German.
- LibreOffice is a free alternate to Microsoft Office and offers the same functionality. It’s easy to install and use. See: www.libreoffice.org
Help your students understand today’s top stories with **WHAT IN THE WORLD?** – LesPlan’s highly-acclaimed monthly current events resource.

Engaging, levelled articles, background information and original illustrations make the news interesting and easy to grasp. Accompanying questions and assignments provide multiple ways to examine the topics and enhance literacy and critical thinking.
